Continuation of 2. NOTE: Applicant's amendment to independent claim 12, while apparently addressing several issues raised in the rejection under 35 U.S.C. 112, second paragraph, nonetheless removes several previously recited limitations, effectively broadening the scope and changing the meaning of claims 3-5 and 12. Further consideration of these claims would be required to fairly determine patentability.

Continuation of 10. Other: It is noted that Applicant has not addressed the Examiner's expressed concerns regarding the support by the specification for the newly claimed limitations (see item 4 in the previous Office action). Accordingly, clarification is still required.
